A Great Area for Fishing

The population of zander in Skanderborg Lake is one of the best in Denmark.

It is not unusual to catch zander of 5 - 6 kg and the record is 11 kg. It is allowed to use living bait. The best catches are made from boat, but in the spring you may have luck in shallow water. The closed season for zander is 01. - 31.05. Minimum size is 40 cm.

The population of pike is very good and has increased over the last few years. It is quite common to catch pike of 6 - 7 kg from the shore, especially in the spring and autumn. During the summer the best catches are made from boat. The record is 12 kg. The closed season for pike is 01. - 30.04. Minimum size is 40 cm.

Skanderborg Sø Camping – A Scenic Camp Site in Denmark

There is also a good population of eel, tench and crucian carp in the lakes around Skanderborg. The surroundings offer more fine trout lakes and it is possible to fly fish in the neighbourhood as well.

If you like to go seafishing, the coast is only 20 km from the campsite. You need the national fishing license everywhere if you are between 18—65 years. You can read more at: www.fisketegn.dk.

In the lakes outside the campsite, you also need a local license which can be issued at the campsite.

Skanderborg Sø Camping – A Scenic Camp Site in Denmark

When you stay at the campsite, you may angle for free from our jetties. It is not possible to go there by car, so you will have to walk approx. 300 m. from the centre of the camp site to the lakeside. Max use is 2 rods.

Approx. 2 km from the campsite you'll find more than 50 very good pegs for coarse angling and around the lakes you'll find more than 100 pegs for different kind of angling. Most of them are easily accessed by car.

You can rent fully equipped rowing boats at the campsite and you are welcome to bring your own small motor. You may also bring your own small boat if you like.

It is possible to rent well-equipped chalets on the site. It is not allowed to keep any kind of bait indoor, but it is possible to store a minor lot in our storage room.

Due to the size of the chalets it is also difficult to store a lot of fishing equipment indoor. We recommend you to keep it in your car, which can be parked next to the chalet.
